

KEGG_2021_Human

Enriched terms

Protein processing in endoplasmic reticu...
Protein export
N-Glycan biosynthesis
Various types of N-glycan biosynthesis
Vibrio cholerae infection
Glycosaminoglycan biosynthesis
Small cell lung cancer
Mannose type O-glycan biosynthesis
Aldosterone-regulated sodium reabsorptio...
Glycine, serine and threonine metabolism
Glyoxylate and dicarboxylate metabolism
Glutathione metabolism
Breast cancer
Longevity regulating pathway
ECM-receptor interaction
Thyroid hormone synthesis
Fluid shear stress and atherosclerosis
Measles
Toxoplasmosis
Pathways in cancer
