

# KEGG\_2021\_Human

Enriched terms

Complement and coagulation cascades

Lipid and atherosclerosis

Legionellosis

Staphylococcus aureus infection

Mineral absorption

Coronavirus disease

Osteoclast differentiation

Tuberculosis

Pertussis

Viral protein interaction with cytokine ...

Phagosome

Antigen processing and presentation

IL-17 signaling pathway

Leishmaniasis

NF-kappa B signaling pathway

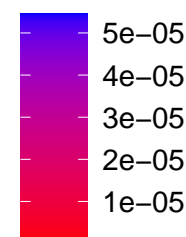

Acute myeloid leukemia

Cytokine-cytokine receptor interaction

Fc gamma R-mediated phagocytosis

Chemokine signaling pathway

Chagas disease
